	Indicator	Disclosure	Level of reporting		For partially reported disclosures, indicate the part not reported	Reason for omission	Explanation for the reason for omission	To be reported in
	Economic pe		reporting		notreponeu	onnission		reported in
	EC1 _{COMM}	Direct economic value generated and distributed, including revenues, operating costs, employee compensation, donations and other community investments, retained earnings, and payments to capital providers and governments.	Fully	Company Snapshot, p.4 We did not declare a dividend for the years 2008, 2009, 2010, and 2011. Instead, at our 2009, 2010, 2011 and 2012 annual shareholders' meetings, CEMEX's stockholders approved a capitalization of retained earnings. Empowering Communities, p.23-27 One country reports to be candidate or compliant with the Extractive Industries Transparency Initiative (EITI)				
7	EC2	Financial implications and other risks and opportunities for the organization's activities due to climate change.	Fully	Message To Our Stakeholders, p.6-7 Embedding Sustainability in Our Business, p.56-60 Carbon Strategy, p.32-36 Position paper on carbon capture and storage and on climate change www.cemex.com/AboutUs/PositionPapers.aspx 2011 Carbon Disclosure Project submission: www.cdproject.net/Sites/2011/86/2986/Investor%20CDP%202011/Pa ges/DisclosureView.Aspx 2011 20F orm, Risk Factors, p.3-20 (including: obtaining requisite governmental approvals, p.11, higher energy and fuel costs, p.12; environmental laws and regulations, p.13; adverse weather conditions, p.17: www.cemex.com/InvestorCenter/files/2011/CEMEX2011_20F.pdf				
	EC3	Coverage of the organization's defined benefit plan obligations.	Fully	The costs of defined contribution plans for the years ended December 31, 2012, 2011 and 2010 were approximately \$528, \$357 and \$550, respectively. CEMEX contributes periodically the amounts offered by the pension plan to the employee's individual accounts, not retaining any remaining liability as of the balance sheet date. 2012 Annual Report, p.52, 57, 92, 109: Note 18, Pensions and postretirement employee benefits: www.cemex.com/Investor/Center/files/2012/CX_AR2012.pdf				
	EC4 Market prese	Significant financial assistance received from government.	Fully	No significant financial assistance was received from any government. We are unaware of any government shareholders. However, one or more governments may be an investor in a fund that holds CEMEX stoks or bonds; in that case, such ownership would not be material.				
	EC5	Range of ratios of standard entry level wage compared to local minimum wage at significant locations of operation.	Fully	Sample of ratios of standard entry level wage compared to local minimum wage at significant locations of operation (the sum of these countries cover over 70% of CEMEX employees). Mexico 1.47 Israel 1.04 Colombia 1.42 Croacia 1.54 Egypt 1.89 Spain 1.83 Filipinas 1.17 France 1.13 Germany 1 Latvia 1.45 Panama 1 Poland 1.2 USA 1.05 These ratios were calculated by comparing local minimum wage and entry level employees at different CEMEX locations.				

	EC6	Policy, practices, and proportion of spending on locally-based suppliers at significant locations of operation.	Fully	Stakeholder Engagement, p. 48-54 Performance in Detail, p.65 The exact criteria used to select suppliers varies from country to country, but always includes cost, quality, and delivery time. Sustainability principles are also increasingly factored in to the decision. For example, Colombia uses the following weighting: Scoring Matrix Informa Colombia (Supplier Certification) 10% Experience with related contracts 10% Economic proposal 25% Technical proposal 20% Time to start / Time to deliver 5% Quality Certifications 5% Local Supplier 4% Local Labor 4% Global Compact member 3% Environmental certification 5% Supplier development 4% Final Score 100% The definition of local used to answer this question is specific to each country and comples with local legislations.				
6	EC7 _{COMM}	Procedures for local hiring and proportion of senior management and workforce hired from the local community at significant locations of operation.	Fully	Approximately 68% of senior managers (210 positions in total) at significant locations of operation are individuals from the local community. CEMEX does not have a global policy for hiring local residents as our hiring processes are standardized across the company. However, we do carry out certain activities that help us recruit local talent such as hiring campaigns at universities and other local organizations. The big majority of our plants workforce come from their local community.				
8	Indirect econo	omic impacts						
	EC8	Development and impact of infrastructure investments and services provided primarily for public benefit through commercial, in-kind, or pro bono engagement.	Fully	The Road Ahead - Infrastructure, p.16-19 Empowering Communities, p.23-27 Our Performance in Detail, p.65 In emerging markets such as Colombia and Mexico, CEMEX's community affairs group uses a "Community Relations Plan" to evaluate socio-economic needs and expectations, as well as the impact of the social programs. In accord with the Plan, we assess real needs, lead and promote formal community meetings, and ensure the community is constantly informed about all programs.				
	EC9	Understanding and describing significant indirect economic impacts, including the extent of impacts.	Fully	CEMEX's indirect economic impacts, particularly those resulting from community initiatives, contribute to international goals and policy agendas associated with health, affordable housing, education, and environmental sustainability. Empowering Communities, p.23-27 Our Performance in Detail, p.65				
				Environmental				
	Indicator Materials	Disclosure	Level of reporting	Location of disclosure	For partially reported disclosures, indicate the part not reported	Reason for omission	Explanation for the reason for omission	To be reported in

8,9	EN2 _{COMM}	Percentage of materials used that are recycled input materials.	Fully	Performance in Detail, Waste types used as alternative fuels (%), Alternative Raw Materials Rate, p.61 From waste to value p.28-30				
	Energy					1		
8	EN3	Direct energy consumption by primary energy source.	Fully	Total direct energy consumption: 191,244.86 TJ - Renewable primary source: 22,171.48 TJ - Non-renewable primary source: 171,574.99 TJ Energy consumption by business, Our performance in detail, p.61				
8	EN4	Indirect energy consumption by primary source.	Fully	Indirect Energy Consumption (electricity) was 7,486.85 GWh (26,952.66 TJ) - 15.60% of energy came from renewable sources - 84.40% of energy came from non-renewable sources Our performance in detail, Alternative Fuels Rate, p.61				

						Proprietary	We do not report on this disclosure (no intention of reporting in the future), since the information is	
8,9	EN5	Energy saved due to conservation and efficiency improvements.	Not			information	proprietary.	
8,9	EN6	Initiatives to provide energy-efficient or renewable energy based products and services, and reductions in energy requirements as a result of these initiatives.	Fully	Paving the Way to Greener Highways, p.18; Smarter and Greener Buildings, p.11-15; Delivering Sustainable Solutions, p.12; Promoting Sustainable Building and Urban Design, p.14				
8,9	EN7 Water	Initiatives to reduce indirect energy consumption and reductions achieved.	Fully	Alternative Energy Powers Operations, and Five US Plants Recognized for Energy Efficiency, p.34 Our Energy Management Program using ENERGY STAR guidelines helped us in keeping our momentum in energy efficiency areas. In 2011, we reduced our overall energy consumption by 1,500,379mmBTU (3.52%). On an actual consumption basis, CEMEX reduced the specific electrical energy consumption by 1.4% (1.78 km/kno nd cement). These reductions were equivalent to avoiding over 139,440 metric tons of CO2 emissions.				
	Water			Water from wetlands, rivers, lakes and oceans: 27 million cubic				
8	EN8	Total water withdrawal by source.	Fully	meters. Ground water: 39 million cubic meters. Rainwater collected directly and stored by the reporting organization: 0.98 million cubic meters. Waste water from another organization: 0.67 million cubic meters. Municipal water or other water utilities: 8.53 million cubic meters.				
8	EN9	Water sources significantly affected by withdrawal of water.	Partially	Our performance in detail, p.62 Standardizing and Aligning Water Footprint Calculation, p.40 9% of our sites are located in areas of potential water stress. In case a water source would be located in a protected area we would aknowledge this through our BAP standard mechanism.	Size of water source.	Not available	We will assess whether this issue is material and if it is, develop mechanisms to collect this data.	2015
8,9	EN10	Percentage and total volume of water recycled and reused.	Partially	Our performance in detail p.62 According to KPIs definitions currently agreed on the CSI the cement industry will be reporting on the % of sites with recycling facilities.	Volume reused.	Not applicable	We do not report on this disclosure (no intention of reporting in the future), since according to KPIs definitions currently agreed on the CSI the cement industry will be reporting on the % of sites with recycling facilities.	
	Biodiversity		Т			T	We do not report on this	
8	EN11	Location and size of land owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas.	Partially	For related information see: Excellence in Environmental and Biodiversity Management p.41-42 Land Management and Biodiversity: www.cemex.com/SustainableDevelopment/LandManagement.aspx	Size of land owned.	Proprietary information	disclosure (no intention of reporting in the future), since the information is proprietary.	
8	EN12 _{COMM}	Description of significant impacts of activities, products, and services on biodiversity in protected areas and areas of high biodiversity value outside protected areas.	Partially	Environmental Management and Biodiversity, Implementing Biodiversity Action Plans; Overview of 2012 progress with CEMEX regional BAP pilots; 2012 BAP Implementation Progress; Success through Collaboration – Soto Pajares, Spair; Creating a Culture of Conservation, p.41-43 Environment and Biodiversity: www.cemex.com/SustainableDevelopment/Conservation.aspx Conservation Efforts: www.cemex.com/SustainableDevelopment/Conservation.aspx Land Management and Biodiversity: www.cemex.com/SustainableDevelopment/LandManagement.aspx Position paper on Environmental Management and Biodiversity: www.cemex.com/AboutUs/PositionPapers.aspx	Description of impacts by category.	Not applicable	Is not feasible to report impacts for our 4504 sites. Potential impacts are reviewed and managed at a local level through implementation of our Biodiversity Action Plans.	
	MM1	Amount of land (owned or leased, and managed for production activities or extractive use) disturbed or rehabilitated.	Fully	Total amount of land disturbed and not yet rehabilitated at the beginning of the reporting period: 18,688 hectares. Total amount of land newly disturbed within the reporting period: 1,145 hectares. Total amount of land newly rehabilitated within the reporting period to the agreed end use: 642 hectares. Thus the total amount of land disturbed and not yet rehabilitated at year end: 19,191 hectares.				

8	EN13 _{COMM}	Habitats protected or restored.	Fully	Number of active quarries with quarry rehabilitation plans in place: 418 (91% of total active quarries). We have partnerships with the International Union for Conservation of Nature, BirdLife International, and local partners of BirdLife in different countries to help us protect and restore habitats. All rehabilitation plans are compliant with local regulation. As part of its biodiversity policy, CEMEX believes that rehabilitation to restore biodiversity the best available tool to reach a no net loss on biodiversity. However, CEMEX acknowledges that offsetting may be appropriate for some quarries where it would not be possible to restore biodiversity involved in some of the discussions were offsets for the cement industry is discussed, and also testing some of the offsetting methodologies that are currently being issued.				
8	EN14 _{COMM}	Strategies, current actions, and future plans for managing impacts on biodiversity.	Fully	Environmental Management and Biodiversity, Implementing Biodiversity Action Plans, p. 41 Land Management and Biodiversity website: www.cemex.com/SustainabieDevelopment/LandManagement.aspx Position Paper on Environmental Management and Biodiversity: www.cemex.com/MediaCenter/files/CEMEX_POSITION_on_Env_M an_Bio.pdf				
	MM2	The number and percentage of total sites identified as requiring biodiversity management plans according to stated criteria, and the number (percentage) of those sites with plans in place.	Fully	A BMP is requiered in all active quarries that overlap with areas of high biodiversity value. Number of sites identified as requiring biodiversity management plans: 94 quarries, or 22% of the total number of actives quarries. Of those 94 quarries, 41% of them have plans in place. Environmental Management and Biodiversity, p.41-43 Environment and Biodiversity, p.41-43 environment and Biodiversity. www.cemex.com/SustainableDevelopment/EnvironmentBiodiversity. aspx				
8	EN15	Number of IUCN Red List species and national conservation list species with habitats in areas affected by operations, by level of extinction risk.	Partially	The Scoping Study that CEMEX and BirdLife International completed in 2010 found that 52% of CEMEX sites overlap with the ranges of Globally Threatened Bird Species (birds identified as Critically Endangered, Endangered, or Vulnerable per the IUCN Red List of Threatened Species), meaning those species may be present on the sites.	Number of IUCN Red List species.	Not applicable	20% of our active quarries are connected to quarries with high biodiversity value, where red-listed species area present. CEMEX is implementing a Biodiversity Action Plan (BAP) in all of them, in order to minimize/eliminate the risks and threats associated to their conservation level. But it would not be possible for us to report this for each of our 450+ sites. It is only available at a local level, and as part of the process of developing each individual BAP.	
	Emissions, eff	luents and waste						
8	EN16	Total direct and indirect greenhouse gas emissions by weight.	Fully	 GHG emissions are monitored site by site following the GHG Protocol and the WBCSD CSI Protocol. Gross emissions include alternative fossil fuels; net emissions exclude them in order to account for indirect GHG savings. Direct GHG emissions (Scope 1 of GHG Protocol): 663 kg CO2/metric tonne of cementitious product. Indirect GHG emissions (Scope 2 of GHG Protocol): 48 kg CO2/metric ton of cementitious product. See also Our Performance in Detail p.61, and About this Report p.71-72 (Data Measurement Techniques) 				
8	EN17	Other relevant indirect greenhouse gas emissions by weight.	Fully	Obtained for key Km. Travelled provided by trading according to the total amount of fuel use for transportation by sea. 2011 Carbon Disclosure Project submission www.odproject.net/Sites/2011/86/2986/Investor%20CDP%202011/Pa ges/DisclosureView.Aspx CEMEX Carbon Footprint Tool calculates CO2 emissions from transportation activities, Carbon Strategy p.32-36

8	EN19	Emissions of ozone-depleting substances by weight.	Not			Not material	We do not report on this issue because our business does not create significant emissions of ozone-depleting substances.	
8	EN20 _{COMM}	NOx, SOx, and other significant air emissions by type and weight.	Partially	Managing Air Emissions, p.39 Performance in Detail, p.62	POP, VOC, HAP, stack or fugitive, other.	Not applicable	CEMEX reports on the air emissions that the "CSI Guidelines for Emissions Monitoring and Reporting in the Cement Industry" identify as the most important ones from the on-site stationary sources we use in our processes.	
8	EN21	Total water discharge by quality and destination.	Fully	Standardizing and Aligning Water Footprint Calculation, p.40 Performance in Detail, p.62 Our water treatment makes discharges quality always compliant with local legislation.				
8	EN22 _{COMM}	Total weight of waste by type and disposal method.	Partially	Related information see Performance in Detail, p.63, for total disposed hazardous and non-hazardous waste. Environmental Management and Biodiversity, p.41	Information by disposal method.	Not available	We have recently created a collection system to gather this information and we are currently working on rolling out the definitions and methodology to collect this data	2015
	ММЗ	Total amounts of overburden, rock, tailings, and sludges and their associated risks.	Not			Not available	We will assess whether this issue is material and if it is, develop mechanisms to collect this data.	2015
8	EN23 _{COMM}	Total number and volume of significant spills.	Fully	We had 1 category 1 incidents in 2012. (Category 1 incidents are significant environmental spills as defined by the CEMEX incident reporting procedure.) 1 Significant environmental release was recorded occurred during 2012. A failure in the fuel dosing system causing increased CO levels and the shutdown of the Electrostatic Precipitator dust abatement equipment resulted in a dust was release beyond site boundary at one of our cement facilities in Germany. The dust release into the local community had no long term human or environmental implications. In terms of remediation. Short term , revised operational and maintainace procedures were introduced. Long term the proposal is to upgrade the current equipment with more effective technology.				
8	EN24	Weight of transported, imported, exported, or treated waste deemed hazardous under the terms of the Basel Convention Annex I, II, III, and VIII, and percentage of transported waste shipped internationally.	Fully	Performance in Detail, p.63, for total disposed hazardous and non- hazardous waste. Clearly Defined KPIs for Waste Management, p.41				
8	EN25	5 , 1 5 5	Partially	Assessment of water bodies significantly affected by water discharges adding information on whether the source is designated as a protected area and water bodies significantly affected by water discharges adding information on biodiversity value would be identified in our Biodiversity Scoping Study E.g. Ramsar Sites. Please visit: www.cemex.com/SustainableDevelopment/EnvironmentBiodiversity. aspx	Identify size of the water bodies	Not available	We will assess whether this issue is material and if it is, develop mechanisms to collect this data.	2015
	Products and	services	1	T		-	1	
7,8,9	EN26	Initiatives to mitigate environmental impacts of products and services, and extent of impact mitigation.	Fully	Performance in Detail, p.61-65 Paving the Way to Greener Highways, p. 18; Faster Concrete Solution is also Resource Efficient, p.18; Delivering Sustainable Solutions, p. 12; Promoting Sustainable Building and Urban Design, p.14; Industrial Ecology: Uncovering Environmental and Economic Synergies, p.30; Carbon Strategy, p.32-36; Environmental Management and Biodiversity, p.37-43 We monitor our operations and mitigate the noise associated by using a variety of strategies, including noise suppression, isolation of noise sources, and careful scheduling of blasting activities.				

8,9	EN27 Compliance	Percentage of products sold and their packaging materials that are reclaimed by category.	Not			Not material	We do not consider this a material issue for our industry. In many of the countries where we operate, the majority of our cement production is sold in bulk without packaging. Concrete and aggregates do not require any packaging.	
8	EN28	Monetary value of significant fines and total number of non-monetary sanctions for non- compliance with environmental laws and regulations.	Fully	Performance in Detail, Associated Fines, p.63 There were 131 cases of non-compliance, 28 in Egypt, 18 Phillipines, 40 in the USA, among others. We received 13 non-monetary sanctions in 2012. 2011 Form 20-F: www.cemex.com/InvestorCenter/files/2011/CEMEX2011_20F.pdf				
8	Transport EN29 Overall	Significant environmental impacts of transporting products and other goods and materials used for the organization's operations, and transporting members of the workforce.	Fully	2011 Carbon Disclosure Project submission www.cdproject.net/Sites/2011/86/2986/Investor%20CDP%202011/Pa ges/DisclosureView.Aspx Carbon Strategy, Transportation Strategey, p.35 Across our operations we implement several initiatives in order to improve our transport environmental performance and minimize its impact on the environment. For example in France www.cemex.com/SustainableDevelopment/cases/FranceSustainable Transport.aspx. This practice is extended across several CEMEX Countries. In Mexico for example we have an initiative to create well- designed routes with the largest loads possible. We also renewed ou transportation equipment for a more environmentally friendly one with engines that recycle CO2 gases. We are currently working on creating a global platform to share best practices on transport and logistics that can be replicated across the company, as we are aware all our efforts are still spreaded out in a country by country basis.				
7,8,9	EN30	Total environmental protection expenditures and investments by type.	Fully	Total environmental capital investments: USD138.6 million: Health and Safety: 70 Alternative Fuels: 34.9 Cementititous: 23.5 Sustainability: 9.1 Energy and Cementitious: 1.1				
	Indicator Employment	Disclosure	Level of reporting	Social: Labor Practices and Decent Work	For partially reported disclosures, indicate the part not reported	Reason for omission	Explanation for the reason for omission	To be reported in
	LA1	Total workforce by employment type, employment contract, and region.	Fully	Performance in Detail, p.65 We do not have a substantial number of workers who are legally recognized as self-employed and seasonal variations in employment are also insignificant. We have 43,466 permanent employees and 439 temporary workers.				
6	LA2	Total number and rate of employee turnover by age group, gender, and region.	Partially	Stakeholder Engagement, p.50 Performance in detail, p.65	Figures by age group, gender, and region.	Proprietary	We do not report on this disclosure (no intention of reporting in the future), since gathering information by gender, age, or region is not permitted in some countries where we operate. In addition, this breakdown is not a factor we consider in our decision-making process.	
	LA3	Benefits provided to full-time employees that are not provided to temporary or part-time employees, by major operations. ment relations	Fully	In addition to any differences required by law, part-time and temporary employees usually receive different bonus pay, insurance options, food allowances, and pensions than full-time employees.				
1,3	LA4	Precentage of employees covered by collective bargaining agreements.	Fully	Approximately 46% (20,081 individuals) of CEMEX employees are covered by collective bargaining agreements.				
3	LA5	Minimum notice period(s) regarding significant operational changes, including whether it is specified in collective agreements.	Fully	On average the minimum days required by law or agreed with Unions is 30 days notice regarding organizational or operational changes, CEMEX provides an average notice period of 40 days.				

		1	1	Only CEMEX Egypt had a strike that lasted more than one week (it		1		1
	MM4	Number of strikes and lock-outs exceeding one week's duration, by country.	Fully	lasted 2 weeks).				
	Occupational	health and safety				T	1	
	LA6	Percentage of total workforce represented in formal joint management-worker health and safety committees that help monitor and advise on occupational health and safety programs.	Fully	81.85% of the workforce is represented in formal joint management- worker health and safety committees. Health and Safety: www.cemex.com/SustainableDevelopment/HealthSafety.aspx

1	LA8	Education, training, counseling, prevention, and risk-control programs in place to assist workforce members, their families, or community members regarding serious diseases.	Fully	Health Essentials Program: www.cemex.com/SustainableDevelopment/HealthEssentials.aspx All of our health programs—whether voluntary or required by local law—are designed according to four basic principles that we have integrated into our Health and Safety Management System: -Information and promotion of health topics. Better-informed employees can prevent or reduce health-related risks; therefore, we make information on a range of health topics. Better-informed employees, and in some cases their families, with vaccines. -Vaccinations. We have a permanent program that provides our employees, and in some cases their families, with vaccines. -Vaccinations and protention and early detection of health issues are critical; therefore, at 96 percent of our operations, we have a qualified health professional on site or offer access to an external health provider. -Rehabilitation. We help employees identify the best recuperation and rehabilitation options following illness or incident. An essential component of Health Essentials is communication. Each month we provide materials—presentiations, brochures, flyers, posters, self-evaluation tests, and recommended actions—related to that month's featured topic.				
				Health and safety issues are included in 64.3% of our agreements with unions. Some of the topics covered at local and global level				
				are: consultation over safe work practices, safety clothing and

	Investment a	and procurement practices			-	-		
1,2,3,4,5,6	HR1	Percentage and total number of significant investment agreements that include human rights clauses or that have undergone human rights screening.	Fully	We include a series of clauses in all (100%) contracts, regardless of the investment size. E.g., our contracts now require all partners to warrant that they abide and will continue to abide internationally recognized human rights standards, including the Universal Declaration of Human Rights and the ILO's Declaration of Fundamental Principles and Rights of Work. A significant agreement is one that is deemed to materially impact the company's consolidated results, which roughly translates to agreements or investments valued at US0300 million or more. Significant agreements and investments are disclosed in SEC filings and/or through our website.				
1,2,3,4,5,6	HR2	Percentage of significant suppliers and contractors that have undergone screening on human rights and actions taken.	Partially	54% of our suppliers and contractors have undergone screeing on human rights.	The percentage of contracts that were either declined or imposed performance conditions.	Not available	We do not currently have this information, but will develop mechanisms for monitoring it.	2015
	HR3	Total hours of employee training on policies and procedures concerning aspects of human rights that are relevant to operations, including the percentage of employees trained.	Fully	We provided training for 5,398 employees (about 12% of employees). Ongoing Training, p.56				
	Non-discrimi	ination						
1,2,6	HR4	Total number of incidents of discrimination and actions taken.	Fully	The Ethics Committee received 325 reports during 2012 including 53 related to empoyee relations, 53 related to forms of harassment and 7 related to discrimination. Of the 7 discrimination related reports received, one remains in process. One of the cases was even investigated twice to discard discrimination occured. Most of the issues relate to management style, in all cases feedback was provided to the employee. Except for one case in which due to the continuous misbehavior the employee was dismissed. Measures are implemented and monitored by local tehtics committees comprising high level executives from the local business unit. From the 325 reports, 295 were solved, of these 140 were found to be true. Whenever a misconduct is identified we implement disciplinary or remedial actions.				
	Freedom of a	association and collective bargaining					1	
1,2,3	HR5 _{COMM} Child labor	Operations identified in which the right to exercise freedom of association and collective bargaining may be at significant risk, and actions taken to support these rights.	Fully	Freedom to Associate, p.58 No risks to freedom of association or collective bargaining were identified. Over 20,000 of our employees (46%) are represented by a union. CEMEX fully acknowledges, supports, and respects its employees rights to freedom of association, provided all actions are legal and that they do not interfere with the employees' duties and responsibilities. We also engage with employees through: collective bargaining processes, quarterly meetings of the board of directors with workers, monthly meetings by specific departments, and individual meetings within departments.				

			Child Labor, p.58 No risks of this kind were identified. At CEMEX we are strongly committed to protecting and respecting the rules regarding child labor in every country we operate.Our selection and hiring process				
Forced and comp		Fully	abor in every country we operate our selection and milling process requires the presentation of government-issued identification, as well as a rigorous investigation of the person's information. This process also extends to our contracted labor suppliers.				
	pulsory labor	r			1		1
	iperations identified as having significant risk for incidents of forced or compulsory labor, nd measures to contribute to the elimination of forced or compulsory labor.	Fully	Forced Labor & Safe Work Environment, p.59 No risks were identified. We forbid all forms of forced labor and have implemented company procedures and training to prevent inadvertent violations of these policies. We do not require anyone to perform hazardous tasks against their will or tasks that are detrimental to their health or well-being. In addition, we take measures to prevent workers from falling into debt bondage through company loans. All employees are free to leave the company at any time.				
Security practices	5	1				[
	ercentage of security personnel trained in the organization's policies or procedures oncerning aspects of human rights that are relevant to operations.	Fully	In 2012, 5,398 hour-long training sessions were conducted with employees regarding policies and procedures related to human rights, harassment and code of ethics (about 12% of employees). Part of this training goes to security personnel as we do not differentiate per type of employee while implementing our Human Rights training program. We apply the same level of training for subcontractors as for our employees.				
indigenous rights	,	1	[[1
an MM5 Inc	otal number of operations taking place in or adjacent to Indigenous Peoples' territories, nd number and percentage of operations or sites where there are formal agreements with digenous Peoples' communities.
