

# DELIVERY TICKETS.

GO PAPERLESS AND KEEP IT REAL.

Real-time information that **improves accuracy**  
and **reduces administrative queries.**

Improve your business performance with **new** paperless digital delivery tickets from **Cemex Go**.

Driver arrives at jobsite with scheduled delivery and locates authorised person

Customer checks the delivery details and signs on the driver's device. Customer can view the delivery ticket in Track on their device and can download or share a copy

Delivery ticket is immediately available for customer to view in Track app or web store and stored securely in the cloud for instant, transparent, and real-time access

*“Cemex Go Paperless will enhance our customer experience and further improve our safe and efficient operating model at Cemex.”*

**Lex Hunter Russell** Managing Director Cemex UK Materials

Operating in a highly regulated sector, Cemex UK recognises its sustainability and environmental obligations. We continuously invest and innovate to become an environmentally friendly, sustainable leader – enabling a low-carbon and resource efficient circular economy.

By introducing **Cemex Go Paperless** we can eliminate the need to print 350,000 delivery dockets per year.

The benefits of going paperless:

- **Increases productivity** – reduction in administrative errors
- **Safer working** – contact free to give you peace of mind
- **More sustainable** – reduction of paper and waste
- **Faster communication** – real-time secure updates
- **Saves time** – instant access and electronic proof of delivery

**Cemex Go Paperless.**

Real-time information. Real business benefits.

## What our customers say

---

*“The Cemex Go Track app is really easy to use and it’s great not having to worry about finding lost tickets as they are all available 24/7 at the touch of a button.”*

**Dean** David Ashley Construction Ltd
